

# Sprint Review

## Broad Overview:

The first sprint was primarily focused on developing a general understanding of the problem and to find motivation to look for solutions.

The sprint involved a client meeting to gain a common and shared understanding of the problem and scope.

## Tasks at hand:

The primary objective of this sprint was to analyse the problem at hand, get a better and more detailed understanding of the problem and to familiarise with the client and the rest of the team. Also involved some research work to look for similar problems and their solutions.

## Tasks Completed:

- Developed a broad understanding of the problem.
- The team met and interacted with the client.
- The team looked for high level solutions for the problem.
